

Top of Michigan TRAILS

April 23, 2020

Top of Michigan Trails is pleased to announce the hiring of new Executive Director, Brent Bolin. A veteran non-profit leader, fundraiser, and community builder, Brent was most recently with national environmental organization Clean Water Action where he served as a Regional Director.

A Note from Brent-

I'm honored to be joining a dynamic organization that has made a real impact on safe and accessible active transportation in Northern Michigan. Now more than ever we are seeing the importance of trails and the recreation, exercise, and transportation opportunities they provide. By linking our communities by trail, we are building a stronger, more connected, and more prosperous Northern Michigan, and Top of Michigan Trails is leading the way. Our recently completed Trail Towns Action Plan maps out a strategy for building additional connections and unlocking the economic development potential of trails for our communities.

Times are tough right now, but Top of Michigan Trails is committed to providing accessible, safe, and scenic trails as a community resource. Responsible use of trails is a great way to get exercise, manage stress, and connect with the world outside our doors during social distancing. I hope to meet many of you out there on our trails!
