From Paulie -

It was an absolute blast to work with these young performers! This was a BIG show for these actors to take on and they did it with grace and enthusiasm and I couldn't be prouder of each person involved in this production!

My favorite part of this process was watching the connections and friendships built and the teamwork that this cast has created over the last few months! My goal in every show is that everyone involved learn something, have fun, and feel like they've grown a little along the way and I believe we've all accomplished that. The talent, professionalism, and commitment of these young performers blows me away.

(I'm really tired here but you were all worth it.)
