*Where winter wonder and holiday
magic come alive in the forest!*

This classic TimberNook program is for children who enjoy taking play to a whole new level through collaborative, creative, and sensory-immersive experiences with friends new and old. Over three festive mornings, we'll dive into winter and Christmas-inspired play—embracing the magic of the season out in the fresh air. We guarantee an experience full of adventures, games, and surprises! If the weather cooperates, our cozy fire pit will be up and running.
