

There's only one aircraft carburetor
that's been with us since the beginning.
There's only one with
unsinkable solid floats.

There's only one

When it comes to your carburetors, there is really only one choice. The one aircraft carburetor that's been with us since the beginning, the only one with innovative solid floats, aircraft carburetors from **Marvel Schebler®!**

New, Rebuilt, and Overhauled Carburetors

Marvel Schebler is committed to providing customers with the best carburetors in the industry. As the only manufacturer of MSA carburetors, Marvel Schebler provides airframe and engine manufactures, and the whole flying community, with a complete line of new, rebuilt and overhauled carburetors. Marvel Schebler supplies the complete line of repair kits and parts, along with all manuals and engineering technical support. They are consistently working on innovations to make your aviation experiences safer.

Their commitment to excellence means we are able to provide the aviation industry with cost effective products of the highest quality and performance and unmatched customer service. Units, parts and kits are available from our stock!

Product Innovation

Marvel Schebler® is not willing merely to accept the status quo. Rather, they are always working on ways to make current parts even better. In addition, they are continually updating their advisory and service publications so you can be sure you always have the most current overhaul and maintenance information. Marvel Schebler® innovations include:

- Hollow Brass float replacement with innovative solid epoxy floats that no longer allow absorption of fuel making them safer and more reliable.
- Introduction of carburetors for homebuilt and LSA aircraft
- Rigid manufacturing standards with modern materials and improved manufacturing techniques
- Factory training and technical advise
- Precise control of fuel flows that meet application specifications
- The highest quality product controlled by advanced inspection and flow test procedures.
