

Our Community Energy Program partner, Community Energy Advisors, has stepped up to help Chambers across Ohio including ours. They already provide us with a great benefit for you, saving you \$\$\$ on your gas and electric bills. From this they provide us a commission for each member who participates. They will be increasing our commission on each new member that signs up for the cost savings program to help our Chamber face our financial hardships due to the Coronavirus pandemic.

All you have to do is fill out an [inquiry form](#) and send it to [ChamberEnergy@ceateam.com](mailto:ChamberEnergy@ceateam.com). Help us by helping yourself save \$\$!
