Just in Time Medical Clinic – a Free Clinic

ProMedica Fostoria Community Hospital

Specialty Clinics

Introduction

Just in Time Medical Clinic is a Christian clinic that was created to help address healthcare needs of the underserved residing in Fostoria, Ohio . The clinic's main role is to serve as a conduit to integrate people into the healthcare system and address immediate needs until they can get established with a continuity provider (PCP).

Vision

To address the need for quality health care services for the underserved in the Fostoria area that leads to improved outcomes.

As a faith based organization, we will offer our services free of charge to people without healthcare insurance and who have an income that is 200 percent (or below) of the Federal Poverty Level and live in Fostoria (zip code 44830). Zip codes served may be expanded in the future.

Objectives

Provide timely healthcare access to the underserved that are in need of primary care or urgent care services while waiting for a PCP appointment

Refer patients to a primary care clinic for ongoing primary care services, medical insurance enrollment

Provide PCP services for patients unable to follow-up with an established PCP office

For urgent needs (until seen by PCP): refer to specialty care, lab work, imaging. Insurance enrollment (if eligible) will be done by ProMedica Fostoria Community Hospital (ProMedica Financial Advocate) and CHS.

For emergent needs: refer to Emergency Room. Services will include:

Screenings: Diabetes, Hypertension, Pregnancy, Ultrasound. Acute Illnesses (flu, colds, skin infections, rash, allergies, sore throat, asthma exacerbation, urinary tract infections) Chronic Illnesses: hypertension, asthma, chronic obstructive pulmonary disease, diabetes. Treat patients with known chronic diseases if responsive to guideline based treatments.

Community Partners

Community Health Services (CHS) has agreed to be our linkage clinic and will become the PCP for the majority of patients seen at our clinic. If patients are unable to follow-up at the CHS or unable to schedule an appointment with CHS, our clinic will become their PCP for urgent needs and/or chronic disease management if they continue to meet our eligibility criteria.

Our local hospital partner is ProMedica Fostoria Community Hospital. We will refer patients for labs, imaging, and specialists as needed to address urgent medical needs prior to developing a relationship with a PCP..

United Way of Fostoria (and other social service agencies) will refer clients to the clinic.

Clinic Dates

The clinic will be open one half day per month in the Specialty Clinic at the ProMedica Fostoria Community Hospital. We will offer scheduled appointments as well as walk in appointments once eligibility is confirmed. We will also give contact information for insurance enrollment. Limited health screenings will be available while eligibility is determined. Telemedicine appointments will be available in the future (date to be determined).
