

Leading in The Post-Pandemic Workplace

A guide for increasing leadership and organizational clarity

Overview:

The pandemic has been a true test of leadership and organizational clarity across industries and around the world. As we prepare for the post-pandemic phase, it will be critically important to consider a broad spectrum of factors that will influence success at every level of the organization.

While some of what has worked in the past will likely have a place in the post-pandemic organization, the accelerating demands of leadership coupled with the shifting expectations of all stakeholders will require leaders and organizations to move beyond many popular notions of leadership and organizational structure.

This highly interactive, researched-based webinar is designed to provide leaders with a deeper understanding of the skills and mindset that will drive leadership and organizational success in the post-pandemic workplace. Participants can expect to leave the webinar with new tools that can be applied immediately to expand their leadership influence and impact.
