Renewal is a non-profit organization  
dedicated to helping living kidney donors  
navigate all aspects of the donation process.

Donors do not need to take  
lifelong medication nor are  
they restricted with their  
diet.

Living kidney donation is  
performed laparoscopically  
with minimal scarring.

Donors usually return to their  
normal lifestyle within 2-4 weeks  
post-transplant, with Renewal  
available to cover lost wages.
