

WE ARE ALL MADE OF π !

March 14 Is Pi Day – Let's Celebrate!

You're Invited to Our Pi Day Party & Open House!

Why should we care about pi? 3.14... The number may be irrational, but it can be found all over the natural world. It appears everywhere there's a circle, such as the disk of the sun, planets, and even the earth. Pi even appears in the spiral of the DNA double helix! This is why we care about pi, and it's why we're inviting you to come celebrate this exceptional number with us at our Pi Day party! **We'll have games, activities, food & drinks, and giveaways!** Let's celebrate this incredible, irrational number!

Where:

Mathnasium of Seal Beach

1198 Pacific Coast Hwy, #E, Seal Beach, CA 90740

When:

Saturday, March 14th, 2020

11 am - 3 pm
