Testimonials

Partnering with Vision Partners has been a great experience and boost for our leadership team and church. While we are still in the early stages of implementation of the Vision, our church has been most encouraged and receptive to what we have discovered. Going through this process was a breath of fresh air. Another set of eyes to see what we were unable to see proved to be the catalyst for moving forward in hope. Our church has been and continues, with help [from Vision Partners], to 'Journey Together Toward Hope.'

Pastor Mark Hanson

Jamestown, NY - Jamestown Church of the Nazarene

I was expecting a cookie cutter model and system that would turn our church into a church that would look like every other church they were working with. Instead, it was evident from the first meeting that the Vision Partners were intent on letting the Holy Spirit direct the vision for NHCC. What emerged was a beautiful, God crafted image of our church that represented our location, our strength and our people at NHCC. I am grateful to the Vision partners for all their time, expertise and patience. They have been a blessing to partner with as they have helped NHCC realize the unique vision that God has for us.

Aaron Hughes

Skowhegan, ME - New Hope Community Church

Where We Serve

Active Leadership Works

Ongoing coaching, cohorts, and training for local leaders seeking to make disciples.

Active Church Works

Individual churches engaged in both weekend and long term planning processes.

Active Network Partners

Growing partnerships with networks, districts, and conferences of churches.

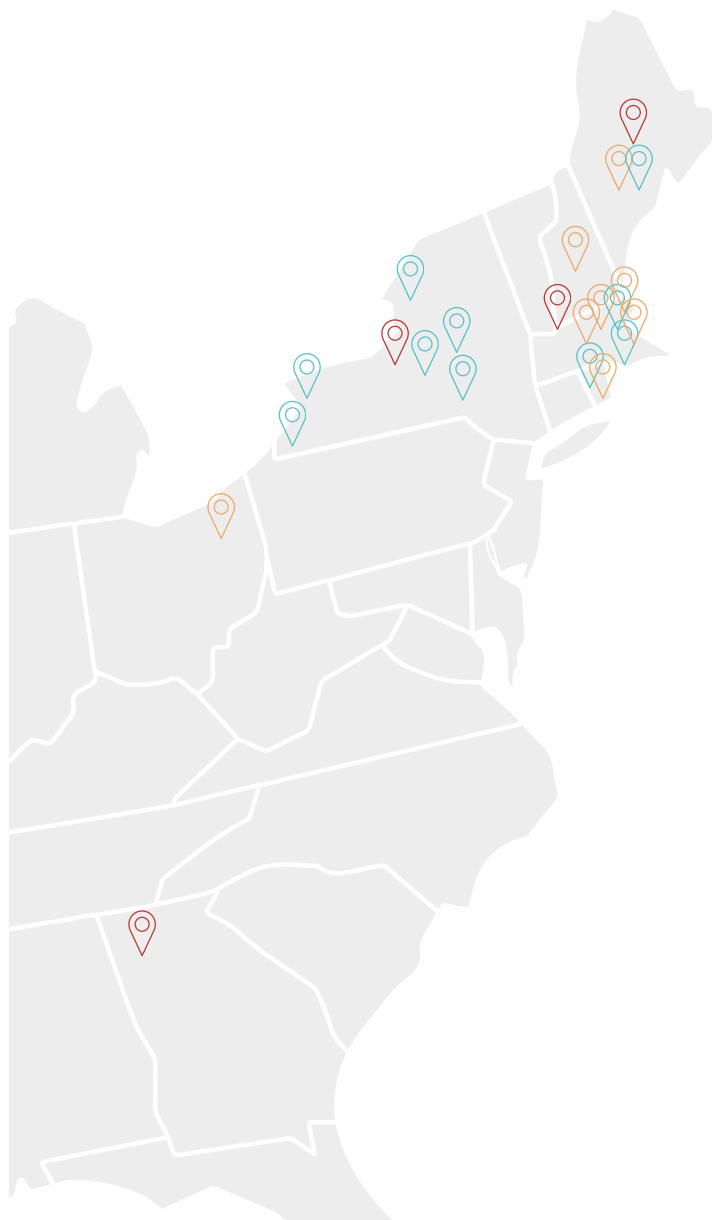

About Us

Bringing together a wealth of 60 years of collective experience in church leadership, our team established Vision Partners with the mission to support leaders and churches facing resource limitations and underutilization. Our approach involves crafting tools and methodologies that foster a discovery-oriented process, empowering each client to develop customized plans tailored to their specific circumstances.

We engage with every client as a collaborative participant, embracing a mindset of continual learning and a profound interest in discerning where God is leading the congregation.
