

Employee Layoff & Termination Assistance

Grace & Porta Benefits' Individual Health Department can help in the case of layoff, termination, or loss of employer-paid coverage. Through a free consultation with one of our benefit consultants, we can identify which type of coverage will best serve you and your family during this time of transition. You may have a number of options available to you, depending on your situation:

- Government-subsidized Marketplace plans
- Carrier direct individual plans
- Medicaid
- COBRA

Whichever you choose, you can make an informed decision.

Please reach out to benefit consultants Jon Frantti or Dave Porta for more information.
