

The Supreme Court of the United States

Got it Right!

By Rev. Cynthia A. Burns

The Supreme Court of the United States aka (SCOTUS), in a courageous act overturned the disastrous decision of, ***Roe v. Wade***, made by the court nearly 50 years ago. Through the years many have prayed, fought, and stood against the false belief of this world in celebrating the termination of a baby in the womb. We can now breathe a sigh of relief, that what we knew all along is now a fact stated by SCOTUS, ***there is no such thing as a constitutional right to an abortion!***

Hallelujah...Life Wins! Here is what the US Supreme Court's decision states: **"The Constitution does not confer a right to abortion; Roe and Casey are overruled; and the authority to regulate abortion is returned to the people and their elected representatives" (A).**

Nearly fifty years ago, the States and its citizenry were starting to have the discussion concerning abortion and the right of a woman to choose to terminate her pregnancy. The US Supreme Court Justices back then decided to weigh in and usurped the rights of the states and

its people. The courageous Justices of the US Supreme Court in 2022 have righted a wrong done years ago and now correctly decided that the states and its people should decide what they want to do in their states.

I believe this will save the lives of millions of babies in our nation. The fruits of this wrong decision in 1973 has caused the earth to miss out on the impact of these 73 million babies whose lives were terminated over the past 49 years. We have lost the contribution each one of these precious martyrs could have made (B).

According to the Center for Disease Control, women in their 20s account for most abortions and in the last reporting year of 2019, over 630,000 babies were aborted in the US. I am viewing these past years statistics through the prism of being pro-life, I have also noticed that the abortion industry is usually located close to college campuses and minority neighborhoods.

Although, the SCOTUS dealt a major blow to the abortion mills, there is still a lot of work that needs to be focused on and accomplished. The battle will now return to the grounds of each state where people who believe in life will need to continue to weigh in and push for the life of these babies. We need to let our representatives, (the ones who work for us), know what we want in our states...
absolutely no abortions!

What once was stated as a “**safe and rare**” medical procedure, has progressed into a form of *birth-control, convenience, partial-birth abortion, and abortion up to the day of birth*. According to the American Center for Law and Justice, the State of California is moving a bill towards becoming a law that if passed will make INFANTICIDE a law that allows babies that were born to be euthanized up to 28 days after they are born! *Can you imagine such a thing?* **May the body of Christ in California rise up to put a stop to this infanticide before it is passed as law!**

The Bible is clear that we are created to multiply and that children are a blessing from the Lord. God certainly did not tell us to populate the whole earth by ourselves. That is why birth-control, before a pregnancy, is a good thing.

I want to say this to those of us who are celebrating this decision that has overturned **Roe vs. Wade** by the US Supreme Court... ***We must continue to act by supporting and helping women, who find themselves in a difficult place. Many are in the valley of decision as to whether they will keep or terminate their child.***

There are some steps we as the pro-life generation can take;

- 1. Let us work with our legislators to back life and adoption with the same finances in which abortion was supported.**
- 2. Begin to change the thinking of the culture toward Adoption and not abortion.**

I read this from a Pastor's daughter on Facebook. It states exactly what I have believed for years. ***Adoption should be more affordable and accessible. There should be services for helping single mothers, young mothers, and mothers of children with disabilities. The money we pour into stopping a heartbeat should be poured into families and aiding in other ways. There should be counseling for victims, safe places, better healthcare, and longer maternity leave. Make other options more accessible. Make valuing a life an American right again. Protect women's rights by empowering them to bring life into this world. LET EACH ONE OF US WORK AT MAKING ADOPTION AND HELPING MOTHERS TO BE THE NORM AND NOT THE EXCEPTION!***

Statistically, there are 36 couples waiting for every 1 child placed for adoption(D). ***So, when people, who are pro-choice say, Conservatives are more about pro-birth than pro-life,*** THIS IS NOT ANY WHERE NEAR THE TRUTH! There are multitudes of

people willing and waiting for children that they can adopt and raise with a loving family environment.

The question that I ask myself is; ***How many of those 73 million aborted babies could have been placed with a family?*** Potentially everyone of them I suppose, if our government had made adoption the option for our nation. I would like to say this to the Christian Church, to Conservatives, to the Right, or whatever you want to call yourself; **please arise and open your hearts, pocketbooks, and homes, to ladies who need support during a very difficult situation. and if chosen, open your lives to a child needing to be adopted.**
Always stand for A.N.A – Adoption not Abortion!
