

# Briarlake Science Olympiad 2017

If your student is interested in participating in the Science Olympiad, please complete the application below and return it to your homeroom teacher by December 19th.

Students will choose their 8 favorite events. Of these, students will be assigned 2-3 events to practice before the competition. **We will contact you as information and coaching sessions are scheduled.**

**Student commitment includes:**

- Attending coached sessions (typically held weekly after school) for your chosen/assigned events
- Attendance at the Science Olympiad competition – March 18th

The success of the Science Olympiad is rooted in parent participation. We will need parents to help coach the different events. Event descriptions and activity suggestions will be provided to coaches.

**Coaching commitment will include:**

- Parents will Coach one or more sessions for events their child has chosen/been assigned. Time and dates for sessions after school are determined by coaches, with sponsor approval.
- **If a parent coaches an event, their child will be assigned that event!**
