IGNITE REBOUND PACKAGE

Official Ellie Mae Pro Consulting Partner

CREATED TO PROVIDE EFFICIENCY TO YOUR CLOSING & POST CLOSING DEPARTMENTS

With pipelines full and liquidity at a premium, the ability to increase productivity in the Closing and Post Closing departments has never been greater.

CLOSING SUMMARY

A custom screen developed by Closers and built for Closers.

This custom screen has been developed to provide your closers with full access to all closing screens and functions within one custom screen.

This screen provides an intuitive path to completing closing packages in half the time.

MERS REGISTRATION & TRANSFER TOOL

This tool fully automates the MERS registration and transfer process on a batch basis. This automated process has saved clients hours of time which allows their staff the ability to focus on other productive tasks.

DATA IMPORT TOOL

- Provides the ability to upload consistent data onto a batch of loan files
- Can take data saved into a common file format (CSV) and update specific data points from the loan file
- Saves hours of time for the Secondary and Post Closing departments

BATCH UPDATE SWEEP

This is a variation of the Data Import Tool that sweeps files into a dedicated location so that a mass of files may be updated overnight.

This process, when used correctly, can update hundreds of files overnight and provides capacity for departments. Best use case for this tool is for purchase advices, but it can be used for many other purposes.

CUSTOM PACKAGE PRICING CAN BE CREATED UPON REQUEST
