

DMV SYSTEM UPGRADE – PRESIDENTS DAY WEEKEND

The New York State DMV is upgrading its systems over Presidents Day Weekend.

DEALER PARTNERS:

THERE ARE NO EXPECTED IMPACTS TO COMPLETING ELECTRONIC TRANSACTIONS IN VERIFI

The VERIFI system is expected to be available and able to process transactions throughout the upgrade period with one minor exception:

- The optional entry field for the drivers' license number during a retail transfer will be temporarily removed.

As always, if there is any unplanned system outage, dealers are permitted to use secure paper MV-50s (see VERIFI messages #99 and #137). If used, any paper MV-50 sales must be entered into VERIFI PROMPTLY WITHIN 48 hours. All transactions should be attempted electronically in VERIFI even if a previous transaction required the use of a secure paper MV-50.

Dealers are responsible for maintaining an adequate supply of secure paper MV-50s. Dealers should review inventory levels now and order stock if needed to ensure their ability to transfer vehicles is not affected by any outage, related to the system upgrade or otherwise.

The upgrade is scheduled to begin at 6:00 p.m. on Friday, February 13, 2026. All registration processing must end no later than 2:00 p.m. on Friday, February 13, and all reconciliation must be completed before 6:00 p.m. The upgrade is anticipated to conclude in the afternoon of Tuesday, February 17, 2026.

DMV strongly encourages that all users of the VERIFI system closely monitor the system for any additional messages.

NON-DEALER PARTNERS:

The upgrade is scheduled to begin at 6:00 p.m. on Friday, February 13, 2026. All registration processing must end no later than 2:00 p.m. on Friday, February 13, and all reconciliation must be completed before 6:00 p.m. The upgrade is anticipated to conclude in the afternoon of Tuesday, February 17, 2026.
