### **Theme:**

This beautiful and thought provoking exhibition features some of the best art and photography submitted to the ENDANGERED Fine Art & Photography Contest from artists and photographers around the world. The show focuses attention on the plight of endangered species and habitats and features work that both celebrates their beauty and documents the threats facing them.

Here is a video of our previous exhibition in Miami during Art Basel week 2018.

### **Proceeds:**

The artists are generously donating a significant percentage of the proceeds of the sale of their work to the Center for Great Apes. All proceeds from the exhibition support the Center for Great Apes, a Florida based 501(c)(3) registered non-profit organization. The Center for Great Apes' mission is to provide a permanent sanctuary for orangutans and chimpanzees who have been rescued or retired from the entertainment industry, from research, or who are no longer wanted as pets. The Center provides care with dignity in a safe, healthy, and enriching environment for great apes in need of lifetime care.
