Water Pasteurization Indicator (WAPI) – Extra Mile Ministries

On behalf of our Honduran brothers and sisters and PAG's family we want to thank Extra Mile Ministries and the network of volunteers, for the donation of 2,000 units of WAPIs to benefit poor families in Honduras. We have attached several photos of families receiving and using the WAPI. We will send more photos as we continue to distribute the WAPIs to those who need them most.

Alba Dina Cruz from the community of Petatillo using her WAPI.

Idania Martinez receiving a WAPI by our field technician Silvia Valeriano.
