

Kick Start Your Business: SBA Debt Relief Program

Debt Reduction for Existing SBA Loans/New Loans Disbursed Prior to September 27th, 2020

- Re-open your business, obtain equipment, address new markets
- This provides existing SBA borrowers with breathing room and immediate improvement to cash flow and bottom-line.
- On new loans this is the same as getting an equity injection to cover the first six months of principal and interest payments.
- From the lender's standpoint, the program provides an extra cushion until the environment improves.
