

OUR PEOPLE SERVE THE COMMUNITY

400 LBS

of food was collected and donated to Manna Food Center to help feed the hungry in Maryland.

"It was hot and it was sweaty, but it was exactly what I expected. It was well organized and the people who volunteered were nice, upbeat and fun to work with. Since most of us were first time farmers, we accomplished a lot more than I ever thought we would. I was proud to be part of the team and I would definitely do it again!"

*- Stacey Holsinger
Business Development Specialist*

"I had such a great time helping out at the ABC XYZ Crush Hunger Event! I signed up because it seemed like a fun activity; a nice change of pace from everyday in the office; and a way to help out my community. It was definitely one of the hardest and dirtiest working days I have ever had, but a wonderful experience. Giving up my time to do physical work rather than just making a monetary donation, made me feel like I was really giving back."

*- Amanda Shapiro
Mechanical Engineer*

"Having grown up in Montgomery County, naturally I love to give back to the community. I definitely underestimated the type of work farmers deal with and have a whole new appreciation for that profession. Being able to help those less fortunate is a great motivation and I would love to continue to be a part of it."
