PRESENTS

PHIL HANEY

Apple River Community Church

942 Hwy 8, Amery, WI 54001

Thursday, October 18th, 6:30pm

The Department of Homeland Security was founded in 2003, its purpose was "preventing terrorist attacks within the United States and reducing America's vulnerability to terrorism." The Bush administration's definition of the enemy as a tactic, terrorism, rather than a specific movement, proved consequential amid a culture of political correctness. By the time President Obama took office, Muslim Brotherhood-linked leaders in the United States were forcing changes to national security policy and even being invited into the highest chambers of influence. A policy known as Countering Violent Extremism emerged, downplaying the threat of supremacist Islam as unrelated to the religion and just one among many violent ideological movements.

When recently retired DHS frontline officer and intelligence expert Philip Haney bravely tried to say something about the people and organizations that threatened the nation, his intelligence information was eliminated, and he was investigated by the very agency assigned to protect the country. The national campaign by the DHS to raise public awareness of terrorism and terrorism-related crime known as If You See Something, Say Something effectively has become If You See Something, Say Nothing.

With forty years of experience in the Strategy and Tactics of the Global Islamic Movement based on Quranic Arabic, with parallel strong focus on Counter Terrorism, thirty years of experience in International Travel (20+ countries), from China to Europe and Central/South America, but with particular emphasis in the Middle East and is a founding Member of the Department of Homeland Security, Customs & Border Protection (CBP) and 15 years of Federal service (retired July 31, 2015), **Phil Haney presents information that has been so compelling that he was instrumental to blocking El Sayed's run for Gov. in MI and he is here in MN with the sole purpose of helping to defeat Keith Ellison. This is vital that we get the information out about his connection to CAIR/Muslim Brotherhood and prevent him from becoming the next Attorney General of MN. What happens in MN will not necessarily stay in MN.**
