**RE: Consultation Regarding Recovery Actions for Southern Resident Killer Whales**

I am writing to follow-up on the correspondence you received Friday, April 12, 2019 with respect to consultation regarding recovery actions for Southern Resident Killer Whales (SRKW). In addition to the information webinar on Thursday, April 18, Fisheries and Oceans Canada (DFO), Transport Canada (TC) and Environment and Climate Change Canada (ECCC) are launching a website, as well as holding three community meetings on April 23, 24 and 25, 2019. Both the website and the public meetings are intended to provide additional opportunities for the public, stakeholders and communities to provide input and feedback on potential SRKW recovery measures for 2019.

Below please find additional information on the website and community meetings, as well as the information webinar.

**Website**

We anticipate the website will be launched by Tuesday, April 23, 2019 but possibly earlier. The website will host the same information on the proposed measures as was included in our Friday correspondence, and a survey form into which you may provide your feedback. Separate written submissions can also be submitted directly to the email address, below.
