THE OPPORTUNITY TO BE MORE THAN JUST AN EMPLOYEE

JOIN OUR TEAM

We are offering a career opportunity to a motivated individual to become a valued part of the firm. The Architectural Intern/Project Manager must be a team player willing to take a leading role in directing, coordinating and producing project design deliverables, and construction documents of multiple commercial and residential projects. Duties will also include Construction Administration services. The candidate will be expected to have professional and positive communication skills with clients, consultants and office team members. Exceptional business management skills and experience would be a plus and could lead to a significant role in your future with the firm.

Minimum required skills/qualifications:
- Bachelor’s/Master Degree in Architecture
- Proficiency in Revit, AutoCAD, Sketchup and Photoshop
- Strong organization, quality, creativity and design skills
- 5 years of relevant professional experience
- Knowledge of building constructability (building codes and standards)

Additional Benefits:
- Employee health, dental, vision insurance
- Paid Time-Off (holidays/sick/vacation)
- All the coffee you can drink
