A CALL FROM SANTA

Would your little one like to receive a phone call from Santa Claus? We are happy to partner with the Portage Optimists Club to offer this FREE event in the evening on Monday, December 10, 2018. All you need to do is fill out a form and return it to the Portage Park & Rec department. Pick up a form at the Park & Rec office or online at portage.recdesk.com, under the Forms tab beginning in mid-November.

Forestry

Park and Boulevard Street Trees

The Portage Park and Recreation Department is in charge of all park and boulevard street trees (trees between the sidewalk and road or within the City Right of Way if there is no sidewalk). If you'd like a tree planted at your home or have a question about the condition of a tree in front of your house call our office and ask for Dan.

Tree plantings take place in the spring; trimming/removals are handled during cold weather months and as needed throughout the year.

Tree plantings are permitted in the City Right of Way via a permit through the City of Portage's tree replacement program. This program designates what trees are allowed to be planted within the City but makes the homeowner eligible to receive matching funds to help pay for the cost of the tree. In addition to the tree replacement program, the City of Portage plants between 75 and 100 street trees each year along the boulevard. If you wish to have your address considered for the City sponsored street tree planting program please contact the office.

Emerald Ash Borer

Emerald Ash Borer is in full swing within the City of Portage. If your ash tree is showing signs like the below photo it means the Emerald Ash Borer has infected and is killing your tree. The City is removing all public property ash trees as they begin showing signs of dieback. If you have a question about Emerald Ash Borer or if you have a public street tree that looks like the below photo you may call our office for more information.

Park Projects

Portage Youth Baseball Field

The City of Portage and Portage Youth Baseball Inc. have worked together since 2015 to fund, design, and construct a third youth baseball field at the Bruce A. Smith Little League Complex. Photos below show a few stages of construction. The project is scheduled to be completed by fall of 2018 and ready for play in early summer of 2019.

Boat Pier

The City of Portage replaced the Silver Lake parking lot wall in 2015/2016 but a boat pier was not able to be included in the budget.

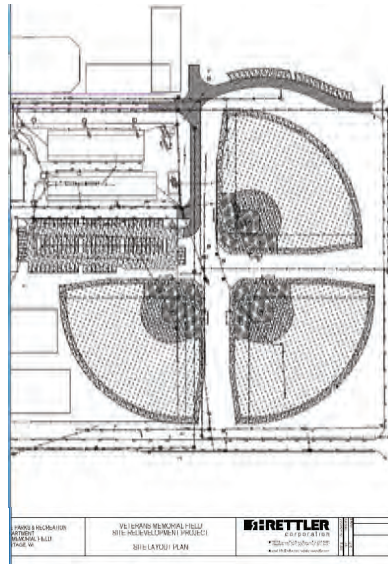

At that time the City placed funds in the budget for 2018 and **the boat pier was successfully installed in the spring of 2018.** Boats may now tie off safely and access Silver Lake at our boat ramp location.

Adult Softball Diamond

The City of Portage is working on the third segment of the **Veterans Memorial Field master plan** which calls for the construction of new softball fields within the Veterans Memorial Fields Complex. The City is currently constructing the first field within the plan that calls for three fields in the area. In 2018 the City is building one, three-hundred-foot, fenced, adult softball diamond which will have the light pole bases and underground electrical conduit installed at the same time. Lights and future fields will be funded at a later date when the City's capital budget allows. Construction is scheduled to be completed fall of 2018 and ready for play late spring of 2019.

Playground Projects

Silver Lake Beach and Sunset Park underwent new playground projects due to a generous matching grant from the Lenz Charitable Trust. The City used \$50,000 from the

parkland fund to match \$50,000 from the Edward and June Lenz Charitable Trust to fund \$100,000 worth of playground structures at the two park locations. Both projects were completed in June of 2018 and are open to the public.
