Best way to contact the office- email schooloffice@seas-school.org or call 651-437-3098

PARENT NIGHT TONIGHT! Doors will open at 6:15, presentations start at 6:30. Each large meeting in the gym is a little different, so please attend both if you have kids in both levels.

- K-5th is TONIGHT!
 - Teachers will make presentations in their classrooms. There will be two sessions, one starting at 6:30 and one starting at 6:55 followed by a large group meeting in the gym.
- Middle School is Thursday, September 19th.
 - Parents will follow their child's schedule, starting at 6:30, and then gather in the gym for a large group meeting. Schedules will be in the foyer to be picked up.
- Mr. Pechacek and Mr. Schommer will be available at conferences to discuss the school year ahead. They will not be present on either night.

MAPS Testing started yesterday. We were scheduled to start last week, but the heat in the rooms was difficult to manage at times, so we are testing over the next two weeks. We will still have fall results available for conferences. A schedule for testing can be found [here](#).

Medications during the school day. Just a reminder that we need written permission for non-prescription drugs to be given out during the school day. This includes pain relievers or cough drops. Forms are available from the school office, nurse or found [here](#) on our website. More information is on the second page of this letter and also in the Student/Parent Handbook.

Last week was rather uncomfortable in the building. I had two budding 8th grade scientists track the temperatures on a couple of days last week. We only recorded the upstairs because those rooms are the warmest. The highest temperature recorded in a room was 86.2 with 62% humidity. That is a heat index reading of 92 degrees. At Saturday night's mass, it was close to a heat index of 96 in the gym. This leads me to two things- first, we will be considering half days when the heat index is that high. Second, air conditioning in classrooms and hopefully the gym will happen soon. Part of the capital campaign with the parish last year was money to improve the heating and add AC to the school. More details will be forthcoming.

We have volleyball home games this Thursday. Our 8th grade team is on a great run and is currently undefeated, next game is at 4:30 at New Life Academy. 7th and 6th grade teams have been playing hard and improving every week. Games are at 4:30 and 5:15. If you can, please come out and cheer on our SEAS Patriots!

God bless you all and have a great week,

Mr. Sullivan

MEDICATIONS DURING THE SCHOOL DAY

There are different protocols for “prescription” medications (prescribed by a healthcare provider) vs “non-prescription” medication (over-the-counter). Both do require parental/guardian authorization with a signature. Both authorization forms can be found on our school website under the Current Families tab/Health Office/Forms, or available in the school office or from the school nurse.

Prescription medication: Form must state the student's full name, name of medication, dose, time, how the medication is to be given, and for how long the medication must be taken. The form must be signed by both a licensed healthcare provider (MD, DO, PA, or RN Nurse Practitioner) and a parent/guardian. Parent/Guardian must provide the original container from the pharmacy with the name of the student, medication, dose, time, etc and not be past the listed expiration date.. All information from the form and medicine bottle must match.

Non-Prescription medication: A form must be filled out by a parent/guardian with the student's name, name of medication, dose, how often they should receive medication, and when they should receive medication. The form must be signed by a parent/guardian. The medication must come to school in its original box or bottle and not be past the listed expiration date. For example: we cannot accept a ziplock bag of pills with a name of the medication on it.

Parents must provide non-prescription medication for their child if necessary. The school will not provide such medication for them.

Non FDA approved medication must be approved by the school nurse. Herbal treatments will not be administered by the school nurse or other staff members.
