

Nursery Pest, Water and Fertilizer Management

Workshop on nursery management for ornamental plants in south Florida.

Join us for an informative workshop on the fundamentals of nursery management in south Florida. Topics will include the science behind growth mediums, optimization of irrigation, strategies for fertilizing plants, and an overview of pests impacting the industry. Your UF/IFAS instructors will be a team representing different aspects of the nursery industry, including: Dr. Haimanote Bayabil (Agricultural and Biological Engineering), Dr. Alexandra Revynthi (Entomology and Nematology), Dr. Tom Yeager (Environmental Horticulture), and Dr. John Roberts (Palm Beach County Extension). Each section will include a demonstration and/or an activity.

Pending CEU's available for FDACS (Core, OT, LLO, LCLM), FNGLA, LIAF, and ISA

Palm Beach County
Board of County Commissioners

Thursday
October 6, 2022
12:00-4:30 pm
