September is National Guide Dog month? It is a month-long celebration set apart to honor the work of guide dogs and raise awareness, appreciation, and support for guide dog schools across the U.S. Guide dogs go through rigorous training from an early age. They help those with sensory issues such as blindness and provide added mobility and independence for those who might not have otherwise had such freedoms. Dogs have been domesticated for around 150,000 years and have been coexisting with humans since back then. Ancient artifacts and scrolls show instances where dogs were guiding their human companions. The first attempt to train guide dogs was in Paris at the 'Les Quinze-Vingts' hospital for the blind. The founder of the Institute for the Education of the Blind 'Blinden-Erziehungs-Institut' in Vienna, Johann Wilhelm Klein, wrote about guide dogs in his book published in 1819. This provides evidence that dogs have been helping humans for a long period. After the First World War, when many soldiers came back blind, the use of guide dogs peaked. The demand for this service prompted the opening of the first school for guide dogs in Oldenburg, Germany. Dog trainer Dorothy Harrison Eustis is attributed with bringing the first guide dog to America, and Eustis later</i>
