Hand-Care Products

Kills 99.9% of germs and Bacteria, thoroughly cleans and disinfects hands

Our Anti-Bacterial Hand Soap has been formulated specifically for professional use to thoroughly clean, sanitise and disinfect hands. The EN1499 formulation is effective against infectious organisms and viruses including MRSA, H1N1 and Norovirus. Chlorhexidine Digluconate is used to give anti microbial action, which enables the formulation to meet international specifications on skin disinfecting. It easily removes ingrained dirt, grease and oil from the skin.
