

Homeless Families Count Family Assessment Week 2017

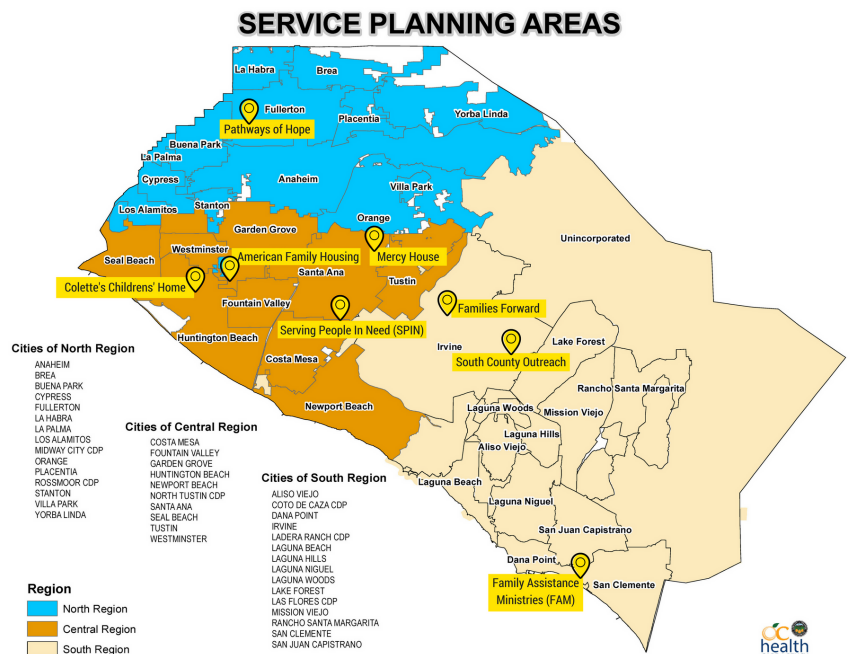

What is it?

The Orange County Family Assessment week was a focused effort to reach the community's homeless families through the combined effort of the County of Orange, 211OC and the A2 Family Cohort, with the support of the Children and Families Commission. The A2 Family Cohort is comprised of the following organizations: American Family Housing, Families Forward, Family Assistance Ministries, Mercy House, Pathways of Hope, and South County Outreach. The A2 Family Cohort was created in 2014 to collaborate in the shared vision of ending family homelessness. Since its start, the A2 Cohort has added partners such as Serving People In Need and Colette's Children's Home to align our efforts and end family homelessness.

Where in Orange County?

Orange County is divided into three Service Planning Areas (SPAs) that efficiently direct resources as individuals experiencing homelessness enter the Coordinated Entry System.

Family Assessment Week At a Glance
