*“The Colorado Department of Human Services and Executive Director Michelle Barnes have announced public testimony days for the [Colorado Behavioral Health Task Force](#) (BHTF). This task force will evaluate Colorado’s behavioral health system and author a statewide, strategic Blueprint to reform the system with the goal of enabling every Coloradan experiencing behavioral health needs to receive timely, high-quality services in their communities.*

*The BHTF wants to hear from the public about their journey within the behavioral health system; the challenges that are still being worked through, suggestions to make the behavioral health system work for all Coloradans and the resources that helped find success.”*

**Share your story at this important meeting with other IDD families, advocates, and providers!**
