

Good Afternoon 7th grade parents,

We want to invite you to a Capstone Information evening on Tuesday, November 6 at 7:00 pm in the BFCCPS Auditorium. Capstone is the culminating community service project that all BFCCPS students begin in 7th grade and complete in their 8th grade year.

The Capstone process will be introduced to all 7th grade students on Thursday, November 1st during advising, and their first step will be assigned on Thursday, November 8th.

The Capstone process is primarily an outside-of-school project that students complete over the spring of their 7th grade year, summer, and fall of their 8th grade year. Steps will be introduced during advising class and your child's advisor will help coach them through each step of the process. To have a successful project the students will need your support, but it is expected that the students take the initiative to do their own projects.

During the information evening we will review the timeline and steps of the Capstone Process and answer any questions you might have about the project's requirements. This evening is intended for parents only.

We hope to see you there!

Sincerely,  
Jenifer Sunday and Beth Kaplan  
Capstone Coordinators
