

PILOT AND FEASIBILITY GRANT PROGRAM

CALL FOR PROPOSALS

The Penn Center for Musculoskeletal Disorders is once again accepting applications for its Pilot and Feasibility Grant Program. Submissions should be related to musculoskeletal tissue injury and repair which is the broad focus of the Center.

Grants are only eligible for Full Members

Potential applicants are encouraged to send a short e-mail, with your name, a rough title of your proposed project, a sentence or two (at most) describing the global hypothesis or objective, and a note as to which of the 3 Research Cores (Biomechanics, Histology, MicroCT) you would use to pcmd@pennmedicine.upenn.edu

Core Use is required for Pilot Funding

Funding level maximum is \$50,000.
