

Adult Employment

Our ESOL program, job placement services, assistance with unemployment claims, and case management through our Immigrant Families and Healthy Families programs serves existing and newly enrolled clients remotely via phone, video conferencing, and email as appropriate. AEP staff offer weekly job readiness workshops in English and Spanish via Zoom on topics such as Resume Writing, Interview Skills, Workers' Rights, and Financial Literacy. We continue to successfully place program participants at local companies that have been reaching out to AEP for referrals. Some of these companies have hired customer service representatives, chef assistants, production helpers, and clerical assistants. After successfully placing 3 AEP clients into COVID-19 Contact Tracing positions, we are again partnering with NYC Health and Hospitals Corporation to recruit canvassers for Sunset Park and nearby neighborhoods. These canvassers are going out into the community to share COVID-19 related resources, spread the word about testing and to sign residents up for COVID vaccines. We thank our partners for their continuous support of our community's job seekers.
