MMG Suite of Services

MMG's physician-led team can offer complementary patient management, assessment, and treatment to ensure the highest level of patient care. We also have in-house expertise available to help manage all aspects of the required insurance and litigation reporting requirements.

Our value propositions include:

- Prescription consultation
- Access to clinical leaders and pioneers in cannabis therapy
- Nationwide access to physicians
- Case management
- IME (Independent Medical Assessments)
- Medical legal reports
- Future care cost consulting
- Completion of treatment plans for submission to insurers' funding requests
- Education and training
- Funding management
- Cannabis education

Financing

MMG assists with identifying finance options for those who qualify. If the insurer refuses to fund prescriptions, equipment or additional services, financing may be an option to enable treatment to continue.

Litigation Services

MMG has the ability to completely manage a patient's clinical and litigation needs for cannabinoid therapy.

This includes:

- Documentation to assist in the validation of a claim
- Clarification as to why the clients needs and can benefit from medical cannabis
- Determination of how long a client will require medical cannabis and other related needs
- Calculation of current and future market cost of medical cannabis
- Management of dosage requirement as a client's symptoms change

AB Management

MMG offers AB management in order to interface with the Auto-Insurers to requisition payment for product and related management services.

Tort Management

MMG may add value to a claim by accurately documenting denial or exhaustion of benefits.

Physician Services

MMG enhances physicians' knowledge of cannabinoid therapy and benefit utilization. MMG has an information referral package, exclusive to family doctors and is available upon request.

Education Services

MMG hosts ongoing information sessions, lunch & learns and professional workshops for medical cannabis education. Please contact MMG to arrange a free consultation.

Rehabilitation Services

MMG is the national leader in patient assessment for clients receiving cannabinoid therapy.

Our services include:

- Collaborating with all members of the rehabilitation team
- Assisting patients on long-term disability
- Interfacing with existing treatment providers
- Consulting with treating physicians and care team
- Aiding patients on long-term disability
- Facilitating 3rd party benefit consulting
- Attending case conferences
- Providing clinical documentation
- Sharing return-to-work expertise

Employer and Occupational Services

MMG can assist employer groups with their Occupational Health and Human Resource needs. Our suite of services ensures that the Employer, Union and the Employee are supported in providing a suite of services to support Primary prevention, Secondary prevention and Tertiary prevention strategies.

MMG provides the following services:

- Medical assessment and treatment plan development
- Risk assessments for safety and medication use
- Cannabis education for return-to-work safety
- Workers compensation management
- Future care cost analysis
- Policy development
- Employer disputes, coverage disputes
- Workplace education

Research Support

MMG assists with providing evidence based research to strengthen your client's claim.
