NAGMA

National Architectural Glass & Metal Association

Learn more about NAGMA:
nagmassociation.org

Services & Resources

NAGMA works directly with contractors and affiliated associations at both the local and national levels.

We're here to help you grow your business.

Supporting union architectural glass and metal contractors

NAGMA represents contractor interests on national issues and provides industry research, technical education, and support for local associations. Contractor members of affiliated local associations have access to the same NAGMA resources as independent contractor members.

National Advocacy & Representation
Industry Research & Business Opportunities
Technical Education & Resources
Local Association Development & Support
Direct Local Engagement

National Advocacy & Representation

Labor relations:

Monitor developments involving the International Union of Painters and Allied Trades (IUPAT) and represent contractor perspectives on national labor-management matters.

Legislative and regulatory issues:

Monitor federal policy developments affecting contractors and communicate industry concerns.

Multiemployer plans:

Participate in Health&PensionWORKS, a health and pension advocacy coalition addressing legislative and regulatory matters affecting multiemployer benefit plans and monitoring issues that may affect registered apprenticeship plans.

Industry Research & Business Opportunities

Market expansion study:
Research on 28 potential opportunities across interior glass systems, building envelopes, specialty glazing, and related services.

Contractor assessment tool:
Company-specific opportunity screening based on existing capabilities, markets, customer relationships, and business objectives.

Practical decision resources:
Opportunity briefs outlining market demand, barriers, capabilities needed, risks, and potential next steps.

Technical Education & Resources

Monthly technical content:
Written, video, and audio educational materials on topics relevant to commercial glazing and architectural metals.

Relevant subjects:
Topics informed by member questions, emerging technologies and practices, and industry expertise.

Local Association Development & Support

Association formation:
Assisting contractors where no local association exists, including formation grants, sample organizational documents, and guidance.

Governance and operations:
Providing guidance on association governance, organizational practices and leadership responsibilities.

National issues and leadership education:
Sharing information on issues affecting local contractors and offering a speaker program featuring nationally recognized leadership trainers from the contracting industry.

Ongoing assistance:
Serving as a resource to local association leadership and staff on organizational questions and member services.

Direct Local Engagement

Local visits and conversation:
NAGMA representatives meet with contractors and association leaders to hear local concerns, provide information and assistance, and carry contractor perspectives into national industry discussions.
