#### District Strategic Plan Update

- Main Themes: 1) **Student experience** (climate, culture, safety, socio-emotional learning, vaping, facilities); 2) **Personalized and engaged learning** (extracurricular; college, career and life ready; class sizes; whole-person instruction; special education support/needs); 3) **Community engagement** (partnerships; competitive and relevant schools; create and connect opportunities for stakeholders); 4) **Staff** (professional development [learning, curriculum > high quality instruction]; best- and research-based practices; equity [economic, ethnic, LGBTQ, when “seen” motivated to engage])
- Community meetings will be held in English and Spanish

#### Other Items:

- Vaping - meeting with student groups to determine needs to address this issue; this is a significant challenge we are facing as a district in our middle- and high-schools. We need parents help on this too - please have regular conversations with your students about this. Working on putting together a list of prevention services.
- COVID 19 - getting resources out to school sites to monitor this concern and continue engaging proactive measures to keep school communities safe. Working with local health agencies to monitor the issue and will take steps necessary to maintain health and safety at schools. Deep cleaning schools with high rate of absences. Will clarify what is communicated to our school nurses to make sure we are standardizing the health expectations at school sites. Use the District Web site blue button for further information for parents.
