Parent Advocacy, Support, and Resources

With

Having a child with Special Needs can bring a lot of extra challenges, but you're not alone! Join us to meet and network with other parents, and learn more about how Raising Special Kids can help support you and your child. Nannette Salasek from Raising Special Kids will be here to discuss:

- Who Raising Special Kids is and how they can help parents
- Finding accurate, authoritative information related to your child's disability or special health condition
- Special Education consultations, training, and problem-resolution services
- Education and coaching for parents to learn the most effective methods in managing challenging behavior
- Connecting with a trained Parent Mentor that is skilled at providing more specific information and support

At the end of this seminar, time will also be given for parents to network with each other so families can connect to create stronger support systems for our PVUSD families.

About Raising Special Kids: Raising Special Kids is a non-profit that exists to improve the lives of children with the full range of disabilities, from birth to age 26, by providing support, training, information and individual assistance so families can become effective advocates for their children. Our motto, "**families helping families,**" reflects our commitment to support families in all forms and from diverse cultures. Raising Special Kids serves as Arizona's Family-to-Family Health Information Center, and as Arizona's Parent Training and Information Center. Helping parents access information about health care, community resources, and support services so they can make informed decisions regarding their children's care has been our mission from the beginning.
