Rappahannock River District Office  
Board of Missions/Builders Club  
P.O. Box 100  
Ladysmith, VA 22501

Dear Sirs and Madams:

This letter is in support of a request for funds from the Board of Missions/Builders Club for the Rappahannock River District (RRD Builders Club).

There has been an ongoing sewage disposal concerns between the Parsonage and the Church requiring extensive measures to complete repairs. Sewage Disposal System Repair requires work to be completed in three (3) phases:

1. Removal of a large tree, which roots are a part of the issue – estimate for removal has been obtained.
2. Removal of a portion of the sidewalk (has to be removed in order to make sewer line repairs) and replacing the sidewalk after repairs are completed.
3. Sewage Disposal System Repair: pump, crush and fill existing septic tank; install one 1,200 gallon septic tank with effluent filter and access riser, connections to existing dwelling sewer line and to new drainfield; 1,260 square feet of new drainfield (an estimate has been received for this phase as well).

It is estimated to be \$12,000 to complete all phases of this repair. Cash on hand for this project is \$2,150 (fundraising raised this amount). Any help from the RRD Builders Club to help us to complete all 3 phases of this necessary project will be greatly appreciated.

Sincerely,

After work was started W.C. Lowry found additional  
PARTS & labor required for \$2,600. Also electrician  
was required for an additional \$675.00

\$15,275
