

Exciting changes are underway at the First National Bank Belfast branch, as renovations have officially begun! While improvements are being made to serve you better, we want to assure our valued customers that **we are open** for all your banking needs. During this time, please find us in our temporary office conveniently located behind the current branch. This temporary space includes both a lobby for in-person transactions and a drive-up window for quick and easy service. We anticipate these renovations will be complete by the end of June, and we look forward to welcoming you back to our updated branch soon.
