

Signs of Spring here at the farm

Piglets! Calves! Spring greens!
Seedlings growing, first flowers and buds...
Rhubarb and radishes coming soon!

Well, we can all breathe a big sigh of relief as all expected babies have been born here on the farm. We have 3 healthy calves in the barn yard that are providing daily entertainment for us and visitors and one mama pig had her first litter of piglets, 13 beautiful piglets born to her. The other mama pig had her 3rd litter and she had 14 piglets born! An incredible few weeks of welcoming new life to our corner of the world. They are all doing well and we can shift more of our attention to the gardens and end of April activities. Seedlings are growing well, Rhubarb is really starting to push up, chives and other spring greenery are all a welcome sight. We have seen our first purple spring flowers and are enjoying hearing peepers and woodcocks in the evening.
