Re: Come Boating! Winter Adventure Series:

Front Street Shipyard: Past, Present and Future with JB Turner

The Come Boating! Winter Adventure Series continues Tuesday March 15th, 6:30 pm when Belfast's Front Street Shipyard's founder and president JB Turner will present an overview of the boat yard's past, present and future.

This virtual program is co-sponsored by the Belfast Free Library. To register for the Zoom link go to belfastlibrary.org/virtual-programs.

The presentation includes photos from the Front Street Shipyard's archive, which showcase the growth and development of the Belfast-based boatyard and marina since its inception in 2011. Turner will discuss the initial idea behind launching a boatyard on Belfast Bay, including its challenges and goals for expanding recreational boating. He'll also highlight some of the most prominent projects in the past several years, including major refits and new constructions.

More information about Front Street Shipyard is online at frontstreetshipyard.com.
