

Summer Fruit....

Tomatoes are Here!

Greetings from the farm!

We have been making hay, planting fall crops, harvesting summer crops, harvesting garlic, eating summer fruit and visiting the local swimming spots when we all get too hot. Most things are growing well. Tomatoes, onions, garlic, red norland new potatoes are all looking beautiful. I am sorry to our salad mix enthusiasts; we have had some opportunistic deer who helped themselves to the salad mix and swiss chard among other things...

Our produce is all MOFGA Certified Organic. The Farm Store is open every day, dawn to dusk.

We strive to produce beautiful nutritious food for our neighborhood.

This week at the Farm Store you may find

Sungold and Sakura Cherry Tomatoes!
