

### Parkway North High School Renovation

#### PROJECT SUMMARY:

FFS partnered with ICS Construction Services on the Parkway North High School addition and renovation. FFS supplied the Walstone exterior finish for the school addition which utilized 14,000 sq/ft of Walstone product in the custom color that was selected. The 2<sup>nd</sup> phase of the renovation project, which was enclosing the athletic stadium to create additional storage for the school also utilized the Walstone exterior finish in custom color. The Walstone exterior finish was installed on-site by ICS Construction Services.

#### Meet or Exceeding Owners Goals, Values and/or Expectations:

ICS Construction Services has requested FFS to supply the Walstone material on another project that they have contracted with the Parkway North High School. ICS has become accustom to the service and high quality materials that it receives from FFS. With the ease of installation of the FFS materials, they were able to continue construction during the school year.
