

Welcome to 2019 from the Ability Garden.

We are excited to begin our 20th year offering therapeutic gardening at the NHC Arboretum. We have some big plans; a Carolinas' Horticultural Therapy Workshop January 26th, which is designed for those seeking an introduction using horticulture as a therapeutic intervention, as well as professionals working in the field.

We will be adding a 55 and over section to our Open Community Groups and expanding our program at the JC Roe Center to include more students. Groups meeting at the Arboretum will work through the winter to grow beautiful plants for the Spring Master Gardener Sale. These plants can also be purchased each month at our 3rd Saturday Plant Sales.

We are currently seeking three new members to join our Board. The primary mission for the Ability Garden Board is to establish a stable financial footing for the program.

2019 will be a year of reflection and planning; as we look back to see what we have done well and look forward to plant a solid foundation for another 20 years.
