

## THE ARBORETUM GIFT SHOP

We at the Arboretum Gift Shop are proud to announce our George Carruth collection. George is a sculptor from Waterville Ohio. His lighthearted sculptures have become a collector's garden dream. He has also been recognized on public television in a documentary called: "George Carruth an American Sculptor".

Each sculpture is originally made from a clay cast. No big box store item here! The piece can stand alone or be hung by its own weather resistance hook, which lasts for ages. They also make great gifts and come with a box which includes a note from George.

This charming Critter Cottage is in the Fairy Garden designs. The cottage is, as he describes it, "a delight from leafy shingles of the roof, the tree trunks which make up the cottage, to the woodland animals who inhabit it, each time you look you see a new detail (where did my coffee cup go?). Put this in your fairy garden and watch the magic!"
