

SAMISH ISLAND CAMP LIST OF WORK WHICH NEEDS TO BE DONE

List effective as of April 24, 2021

BUILDING/STRUCTURE TASKS

Replace missing bird screens in the vents under the CFC soffits.
Inspect every rustic cabin's exterior electric service box and the attached ground wire.
Repair the ground wires attachment to grounding stake as necessary.
Perform moss removal on the roofs of the rustic cabins and restroom buildings.
Several rustic cabin porches need to be repaired. A-5, ?-9, ?-10, (B&C) D-6.
Every rustic cabin and classroom needs to be inspected and repaired as necessary for vertical corner trim replacement.
The new barge boards for the E cabins need to be primed and painted. (Sawhorse project.)
Some Barge boards need to be removed and replaced.
Cabin C-1 needs to have siding re-attached.
Cabins E-2 and E-4 need to have barge boards removed, primed, repainted and replaced. E-10 and E-12 may need replacement.
West rest room building barge boards need to be scraped or pressure washed, primed and re-painted.
West rest room building needs re-painting.
Moss needs to be removed on the small laundry/electrical building roof.
Pressure wash, primer, paint many rustic cabin barge boards.
Examine and evaluate siding on several rustic cabins. Replace, primer and paint new work as required.
Remove and replace several support posts in the gazebo.

YARD WORK, TREE, LANDSCAPE TASKS

Cut down and remove one of the deciduous trees near the Southwest corner of the CFC.
Use the stump grinder and grind and remove the stump from the CFC tree. Clean up the residual stump chips. Fill the resulting stump hole.
The two large evergreen shrubs on the south side of the dining hall need to be pruned and trimmed to a height well below the level of the roof line.
A portion of the retaining wall between the E cabins and tiny chapel need to have stones lifted back into place. Stones are very heavy-2 person task.
Grass mowing everywhere.
Concrete needs edging on all sidewalks, concrete porches, horseshoe pit sidings.
Power string trimmer grass trimming around cabins, play area, trees and general areas.
Trail clean up on all trails. Branch removal and clean up of trail debris.
Weed eater work around propane tanks.
Mow or cut grass and brush on dining hall septic area.
Firewood sawing the fir trees in septic area. Split and stack firewood.

POWER WASHING AND CLEANING

Power wash and remove moss growth from the sports court.

The multi color benches and picnic tables by the dining hall and fire pit need to be pressure washed.

Chairs in the gazebo need to be pressure washed.

Pressure wash propane tanks.

Power wash rustic cabins which need to be done.

LONG TERM INSPECTION AND EVALUATION

The 4 by 8 look outs (they hold up the roof and barge boards on south end) on west rest rooms need to be evaluated and perhaps replaced.
