

Learning Center Program

Monthly meeting October 27th 2018

63 people participated representing 29 Learning Centers. The meeting started at 9.00 am, as usual we did pray and general presentation. The first class was developed by the leader Eraidia Vargas from the Hosanna Center (Masaya). Silk flowers were made by everyone.

We continue the next class with Aldo with Origami class as the leaders requested to learn more and reproduce them in the future.

A flower of many folds a traditional lily was made and a gift bag that we can modify in three ways with just handle the folds.

Leonor oriented to put a number on the dolls and bottles decorated to start the contest. The prize of the decorated bottle of the 9 that were competing was recognized to Gloria Chavarria Center given by prof. Karla Nuñez.

For the rag dolls the winner was credited with the stimulus to Doña Hulda from the Renacer Center of 19 dolls presented. 11 dolls were donated to children from the community of Diriamba in Apan.

Everyone should be involved and feel more responsible learning new knowledge.

Leonor reminded us to give the statistical table with the information of each center, since it is very important to know how many people have been trained.

For fogones Project each person needs to make them and they will have to contribute the costs of materials. The organization will contribute in workforce.

If people are interested in libraries Program membership cards are offered and we can look for donors or how to obtain books. We have only until next week for those who are interested. The maximum number of books that are delivered for the first time is 100 books or more.

Packages with candles, shoes and Christmas decorations are given to each participant.

Elizabeth, says that through these meetings has been rehabilitated as she has a stroke.

She believes besides learning, she feels much better. It has been a difficult stage since some people made fun of her because of the way of speaking, however today she feels happy to be here being supported by everyone in the NGO.

Evaluation

Everyone was happy with the activities scheduled for them. Participants felt engaged in art experience because they have reductions in stress, anxiety and increases their positives emotions. It is such a great opportunity to share with others new knowledge and help their communities back home, especially teaching to children so they can have fun and they can create the sense of achievement and happiness.
