

## **What is YouTube Club?**

YouTube is an awesome opportunity for technology savvy student! We began the club four years ago, and have since grown to almost 70 kiddos in size. This is a student led club that focuses on the creation of the different aspects of design and development of different types of videos. From vlogs to stop motion, our officers (veteran members), will work collaboratively with club members to help enhance their own channels. We also have a DIS YouTube channel we use to help teachers and staff reach our students in a truly dynamic way. So if you have a gamer, or just a lover of YouTube, we would love to see them! Next week, KDUR will announce that I have permission slips in my room. Your child will need to come by and get one. They can bring it to the first meeting September 19<sup>th</sup>. I look forward to supporting your child in this amazing club.
