

# OCTOBER is National Principals Month

Each October, National Principals Month recognizes the critical role of the principal in educating our nation's youth. Principals are among the hardest working, yet often least recognized individuals in education. As principals, you are the leaders of learning and builders of culture for your schools, and it is your vision, dedication, and determination that drives student success. ESSAA is proud to honor you, our unsung heroes for your tireless efforts in pursuit of excellence in education.

We are inviting school communities across New York State to join us in celebrating National Principals Month. Now is a great time to say THANK YOU for providing strong leadership during these difficult times. Because of your efforts, our schools are rising to the myriad challenges they face. Principals are steadfast champions of student achievement, now more than ever we salute your commitment and appreciate your perseverance.
