

Camp CAMP Virtual Summer 2020 Self-Assessment Tool

Wondering if the week of virtual summer camp we are planning is right for your Camper/Family? Here are some questions you can use to help guide you.

Mandatory Requirement (Must be able to answer “YES”):

- We have an Internet-connected computer, tablet, or smartphone screen with webcam capabilities that our Camper(s) can use from the evening of July 19th through noon on July 24th to participate

For the next set of questions, it may help to think about how your Camper participated with any online school sessions, or how independently he/she uses a computer or other Internet-connected device on a regular basis.

If you can answer “YES” to **ANY ONE** of these questions, the week of CAMP should be a good fit for your Camper:

- My Camper can sit independently and interact with content delivered via an Internet-connected device and does not require any further assistance or supervision
- My Camper may need some assistance or supervision to participate (physical, behavioral, etc.), but a caregiver will be present to provide whatever is needed for all the sessions throughout the week
- My Camper will have assistance/supervision while participating during many of the sessions, but we may opt to not participate in some sessions if a caregiver is not available at a particular time

If your answer is “YES” to **ANY ONE** of these questions, the week of CAMP **may not be a good fit** for your Camper/Family, and you should make your decision considering these factors:

- My Camper does **not** enjoy using a computer or other Internet-connected device
- My Camper **cannot** maintain interest and attention to content delivered via an Internet-connected device for up to an hour at a time, or at least long enough during an hour-long session to feel the experience was valuable for him/her

Should you have any questions about these or any other concerns specific to your Camper and Family, email familysupport@campcamp.org
