

# Cabela's Outdoor Fund Grant

By Gary Hoffman  
VP for Community & Donor Relations

The trout in Fire Mountain's Lake Challenge are in big trouble this year, due to a very generous donation from the Cabela's Outdoor Fund. Our Scouts are going to have the use of new fishing rods, reels, terminal tackle and bait while they work on earning their Fishing Merit Badges or just spending some time wetting a line at the lake.

After hearing about Cabela's Outdoor Fund, our Council Development team applied for a grant to update our fishing equipment at camp. Cabela's Outdoor Fund has generously awarded our council about \$2,000 in fishing equipment that will be used at Fire Mountain Scout Camp.

When you check out at the local Cabela's store, they always ask if you would like to round up your bill for conservation. These funds are used to support many very worthwhile conservation groups

across the country and locally, but there is also a portion of these funds that are used to fulfill grant requests by local organizations that help educate young people in conservation and outdoor activities. The next time you are at Cabela's, please say thank you for their generous support of the Boy Scouts of America and their continued support of wildlife conservation.
